Kit subtotal: \$271.54. The studio locker deposit is refunded at the end of term when the locker is returned empty and undamaged.

Fabric and Notions — Project Costs

Fabric for the four term projects is **not** included in the kit above and is chosen by each student. Fabric choice drives cost enormously: a student working in cotton broadcloth may spend \$120 across the term, while a student working in silk or wool suiting can easily spend \$500. **Budget approximately \$250 to \$400 for fabric and notions over the term.** Do not purchase fabric for a project before that project's fabric review session.

Project fabric review sessions: September 24, October 22, November 5, and November 19, 2026.

Additional Fees

A studio materials fee of **\$65.00** is billed to your student account on **September 25, 2026**. This covers shared consumables: interfacing, industrial thread, pressing cloths, and machine maintenance.

The end-of-term showcase carries a **\$25.00** participation fee, collected **November 20, 2026**, which covers garment steaming, rack rental, and photography.
